

How can I find sites that have links to my homepage?

To see a list of all the sites that have links to your home page, do the following:

1. Copy the following text to the clipboard
+link:<http://yoursite.com/> -url:<http://yoursite.com/>
2. Link to <http://www.altavista.com/>
3. Paste the text into the search box
4. Replace "your.site" with your site's URL
5. Click the Submit button
6. Alta Vista will display a list of sites that have links to your home page
